

PARENTS AND GUARDIANS

NITROUS OXIDE

Please be aware that we use Nitrous Oxide (Laughing gas) for all appointments requiring anesthesia. Insurances **DO NOT** cover Nitrous Oxide, **with the exception of Medicaid (MCNA)**. If for any reason you are not wanting to have this administered to your child, please let the front office know before or on the day of the appointment.

The parent or guardian bring the child to the appointments **MUST** stay in the building the entire length of the appointment.

SECOND OPINIONS

A second opinion will give you additional knowledge and the peace of mind needed to make the most informed decision. However, not all second opinions may be covered by your insurance carrier. We will submit the procedures to your insurance. If they do not pay for the procedures being done, you will be responsible for the remaining balance.

I have read and understand the policies above and agree to them.
